My style is an artful documentation of your life right now. Using an honest storytelling approach, I create natural and heartfelt photography and film that you will want to look at, hold and cherish forever.

" LEANNE MAKES AN ORDINARY SITUATION LOOK MAGICAL"

I take a very relaxed approach to all my sessions. They are all about telling your unique story so my main aim is to make everyone feel comfortable and to have fun.

“Be warned there may be some lounge dancing, bed jumping and lots of cuddles involved”

These are photographs that make you FEEL as well as ones that look good on your walls. Family life is busy and all so fleeting, which is why I am passionate about documenting it all. When you look at these photos in years to come you will be taken straight back to that moment when life was a little bit more chaotic, a little bit messy and a little bit more beautiful. These are images that tell a unique story of your family and ones that you will hold dear to your heart for a lifetime.

Whether in your home or outdoors, these sessions are all about documenting your family just as they are. Showing all your personalities and the uniqueness of your family. They are very relaxed and I may only guide you all to a certain room with the best light or encourage activities that bring you together as a family in order to get those group family shots.

I know from experience that the first few weeks of a new babies life fly by in a blur of nappies, feeding and sleep deprivation as you try and both find your way into this new world together. Even more so when there are older children about too.

That's why I feel so passionate about documenting this time for you so that you can look back on these images and remember exactly what it was like to rock them, smell their lovely newborn skin and look at their tiny tiny toes.

MOTHERHOOD & MATERNITY

As mothers, we are forever taking photos of our children and partners but we are hardly ever in them! We give our whole selves to our children, growing them, feeding them and nurturing them.

The love and connection we have with our children is like no other and needs to be documented. Not just for us to look back on when they are all grown up but also for our children to see when they are older too.

SESSION FEE

£190

- A personalised questionnaire to find out more about you

Film to me is the ultimate storytelling tool. Wouldn't it be wonderful in years from now you will be able to look back on how you swayed your newborn and danced with your children, their facial expressions and even their little voices?

FILM

Photographs are wonderful but Film adds an extra level of nostalgia, emotion and connection. I use emotive storytelling with a loose plan but I mainly stand back and capture what unfolds in front of me. I edit with beautifully selected music and even your voices to really tell your unique story.
